(waiting for members to report 4th Q tonnage)

Education Outreach: Lectures held in January:

16th University of Guelph 250 students (civil & geotechnical)
24th University of Western 30 (civil)
26th St. Clair College 35 (civil technologists)

Bolt Research Project with MTQ: The translation to English should be completed by mid-February.

Presentations: Combined buried bridges and SW for municipalities, French translations completed, submitted to select PPC members for review.

Glassroot: Met with our media consultants to make changes to the members section of the website, add a full handbook for E-Reader download, add a Manning's N flow calculator, and add the SWM design software.

Quebec Municipalities: It would appear that I may have to register as a lobbyist (in Quebec) in order to set up presentations / promotional program. I will investigate in March

PPC Committee: The minutes were approved and emailed to all members.

Other: Responded to 5 enquiries from ISL Engineering - Edmonton (invert plate coating options), NWT DOT (open bottom arches), Parsons – Markham (SW retention tank), Stantec – Waterloo (SWM), R.V. Anderson – Toronto (storm sewer pipe), and numerous calls from members (rehabilitation, lockseam issues, certification, etc.) Visited a polymer laminated site in Ilderton, Ontario and will post to the "Seeing is Believing" map in February.
